Product Datasheet

beta Actin Mouse Monoclonal Antibody

Catalog No: AB0061 Reactivity: Human , Mouse , Monkey , Goat , Rat , Hamster , Saccharomyces cerevisiae , Arabidopsis , Pichia pastoris , Rabbit , Zebrafish , Drosophila , Leaf of

Rice , Fruit of Cucumber , Chlamydomonas Reinhardtii

Isotype: Mouse IgG2b Applications: WB

Information

UniProt ID: P60709

All Names: ACTIN; ACTB; BETA-ACTIN; beta actin; actin beta;

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.

Storage buffer: pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Purity: Affinity-chromatography

Immunogen: A synthesized peptide Molecular Wt.: 42kDa

Application

WB 1:3000~1:10000

Background

beta-Actin is one of six different actin isoforms that have been identified. The actin molecules found in cells of various species and tissues tend to be very similar in their immunological and physical properties. Therefore, Antibodies against beta-Actin are useful as loading controls for Western Blotting. However it should be noted that levels of beta-Actin may not be stable in certain cells. For example, expression of beta-Actin in adipose tissue is very low and therefore it should not be used as loading control for these tissues.
