Product Datasheet β-Actin Mouse Monoclonal Antibody

Applications: WB,IHC,IF

Catalog No: AY0573

Reactivity:

Human,Monkey,Mouse,Rat,hamster,Dog,Spodopter a frugiperda,chicken,rabbit

www.abways.com

Isotype: Rabbit IgG

Information

UniProt ID: P60709

All Names: ACTB; actin, beta; Actin, cytoplasmic 1; Actin, cytoplasmic 1, N-terminally processed; beta actin; beta cytoskeletal actin; Beta-actin; PS1TP5-binding protein 1; PS1TP5BP1

Form: Liquid

Storage instructions: Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle. **Storage buffer:** pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. **Purity:** Affinity-chromatography

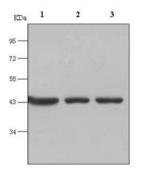

Immunogen: A synthesized peptide Molecular Wt.: 43kDa

Application

WB: 1:3000-10000 IHC: 1:200 IF: 1:200

Background

beta-Actin is one of six different actin isoforms that have been identified. The actin molecules found in cells of various species and tissues tend to be very similar in their immunological and physical properties. Therefore, Antibodies against beta-Actin are useful as loading controls for Western Blotting. However it should be noted that levels of beta-Actin may not be stable in certain cells. For example, expression of beta-Actin in adipose tissue is very low and therefore it should not be used as loading control for these tissues.

Western blot analysis of extracts from Hela cell lysate(lane1), Rat brain tissue lysate(lane2) and Mouse brain tissue lysate(lane3), using β -Actin Mouse Monoclonal antibody.
